Welcome to ASDXDDL8M4- Planning Data Analysis

Moving around

Navigation

Right click + drag / Space bar + drag = Panning mode
+ / Mouse wheel = Zoom in
- / Mouse wheel = Zoom out
Ctrl + 2 = Zoom to selected object
Ctrl + 1 = 100% zoom
Ctrl + 0 = Adjust zoom to show all content
↑,↓,←,→ = Move on the board
Ctrl + Shift + [1-9,a-z] = Jump to quick link

Shortcuts to use

Selection

Click = Single object selection
Shift / CTRL + click = Multi selection
Shift + click & drag = Area selection
R = Toggle area selection
Ctrl + A = Select all
Alt + ↑,↓,←,→ = Select next object in the direction
Alt + Shift + ↓,↑ = Select group child or parent
Esc = Deselect object and reset to standard selection

Tools

N = Add sticky note
G = Add rectangular sticky note
S = Add shape
T = Create text
C = Add comment
L =Add line
D = Draw with nib brush
P = Previous brush in drawing mode
E = Eraser in drawing mode
Ctrl + L = Lock/unlock object
Ctrl + Shift + P = Pin/unpin object
Ctrl + H = Hide/unhide object

Have a play

Use the tools to get familiar with adding content.

Rules regarding webcams

Keep your Webcam on throughout the delivery

Rules regarding mute

Keep your Microphone off throughout for privacy unless you are asked or need to respond.

Frequency of breaks

Short Breaks are scheduled every hour to support you with your learning.

Rules regarding group participation

Everyone should equally participate in Group discussion and take lead in contributing your view.

Rules regarding questions

The Golden Rule:
'There is no such thing as a stupid question'
'Even when asked by an instructor'
Please have a go at answering questions
Also:
'A question never resides in a single mind'
By asking questions, you are helping everyone out

Anything else

Introduction to Scrum

https://www.youtube.com/embed/9TycLR0TqFA?si=1MG-c_2Tun2rR4c0

Team 1

Exercise/Sprint 1: Dairy Delights - Business problem identification and scope definition

Problem Identification

Project Scope, objectives, goals and KPI's of the reports and dashboard.

Potential constraints or limitations.

Project timeline Expectations

Target audience and stakeholders who will use the reports and dashboard.

Technologies and tools that will be utilized for data analysis and visualisation

Tableau

MySQL

Exercise/Sprint 2: Dairy Delights - Gathering business needs from stakeholders

List down the potential stakeholders of Dairy Delights who would be involved in or affected by the waste reduction and profit maximization efforts.

Capturing the current challenges and pain points from stakeholders Interviews to ensure that the data analysis aligns with the company's goals

Lack of integration between inventory systems

What specific dairy products have the most significant waste.

Define specific objectives, KPIs, and data requirements that align with the stakeholders' needs

Exercise/Sprint 3: Dairy Delights - Prioritizing data collection and analysis

Identify potential internal and external data sources.

Internal Sources

External Sources

Prioritize the data sources from most critical to least critical.

Most Critical

Internal finances
Sales figures
Internal stock levels
Supplier stock levels
Reseller stock levels
Customer feedback
Quality Control (wastage data)

Least Critical

Media
Competitor data
CRM
Supplier feedback
Market researc...

Discuss potential challenges in data collection, such as data availability, data quality, or data integration

Systems integration between external and internal. Needs data to be normalised. Customer feedback unreliable - Lack of a robust customer support system

Regulatory Requirements such as GDPR, Data Protection

Discuss how having a well-defined data collection plan will support Dairy Delights in making informed decisions to reduce waste and maximize profits.

Will provide a more streamline efficient service with much less waste which will save money and increase profits.

Improved customer...

Help with creating a clear product and sales strategy
Future proof organisation for further improvements
Better stock management
Reduce waste and spoilage through better packaging and supply chain management

Exercise/Sprint 4: Dairy Delights - Data security & Privacy By Design Exercise

Conduct a data mapping exercise to identify any personal data collected, stored, or processed by Dairy Delights

Customer:
Name
Home address
Email address
Phone Numbers
Customer orders

Assess the risks and vulnerabilities associated with the identified personal data

May allow individuals to be identified from the data.

Lost devices

Data can be breached and without encryption sold on for fraudulent activity

Reputational damage for data breaches, fines from regulators

Analyse the data flow and processing stages for their assigned data type, from collection to analysis.

Data collection
Data processing
standardisation and normalization
Data storage
Data analysis
Presentation of findings

Brainstorm and propose security measures to mitigate the identified risks and implement privacy by design principles for Dairy Delights' data processing and analysis.

Data Encryption
VPNs
Access Controls
Data Retention Policies
Employee Training
2FA

Legislations Protecting Personal Data and the importance of ensuring compliance with data protection regulations, such as GDPR or CCPA, when handling customer and supplier data.

GDPR
ISO standards
Cyber Essentials

Exercise/Sprint 5: Dairy Delights Data Project - Multi-functional team exercise

Identify key roles required for the Dairy Delights data project.

Product owner
Scrum master
Data analysis team
Developer

Define the responsibilities and tasks associated with each identified role.

Team 2

Exercise/Sprint 1: Dairy Delights - Business problem identification and scope definition

Problem Identification

Project Scope, objectives, goals and KPI's of the reports and dashboard.

Potential constraints or limitations.

Project timeline Expectations

Target audience and stakeholders who will use the reports and dashboard.

Technologies and tools that will be utilized for data analysis and visualisation

Exercise/Sprint 2: Dairy Delights - Gathering business needs from stakeholders

List down the potential stakeholders of Dairy Delights who would be involved in or affected by the waste reduction and profit maximization efforts.

Capturing the current challenges and pain points from stakeholders Interviews to ensure that the data analysis aligns with the company's goals

What specific dairy products have the most significant waste.

Define specific objectives, KPIs, and data requirements that align with the stakeholders' needs

Exercise/Sprint 3: Dairy Delights - Prioritizing data collection and analysis

Identify potential internal and external data sources.

Prioritize the data sources from most critical to least critical.

Discuss potential challenges in data collection, such as data availability, data quality, or data integration

Discuss how having a well-defined data collection plan will support Dairy Delights in making informed decisions to reduce waste and maximize profits.

Exercise/Sprint 4: Dairy Delights - Data security & Privacy By Design Exercise

Conduct a data mapping exercise to identify any personal data collected, stored, or processed by Dairy Delights

Assess the risks and vulnerabilities associated with the identified personal data

Analyse the data flow and processing stages for their assigned data type, from collection to analysis.

Brainstorm and propose security measures to mitigate the identified risks and implement privacy by design principles for Dairy Delights' data processing and analysis.

Legislations Protecting Personal Data and the importance of ensuring compliance with data protection regulations, such as GDPR or CCPA, when handling customer and supplier data.

Exercise/Sprint 5: Dairy Delights Data Project - Multi-functional team exercise

Identify key roles required for the Dairy Delights data project.

Define the responsibilities and tasks associated with each identified role.
