QA

Welcome to ASDXDDL8M4- Planning Data Analysis

Moving around

Navigation

Right click + drag / Space bar + drag = Panning mode
+ / Mouse wheel = Zoom in
- / Mouse wheel = Zoom out
Ctrl + 2 = Zoom to selected object
Ctrl + 1 = 100% zoom
Ctrl + 0 = Adjust zoom to show all content
↑,↓,←,→ = Move on the board
Ctrl + Shift + [1-9,a-z] = Jump to quick link

Shortcuts to use

Selection

Click = Single object selection
Shift / CTRL + click = Multi selection
Shift + click & drag = Area selection
R = Toggle area selection
Ctrl + A = Select all
Alt + ↑,↓,←,→ = Select next object in the direction
Alt + Shift + ↓,↑ = Select group child or parent
Esc = Deselect object and reset to standard selection

Tools

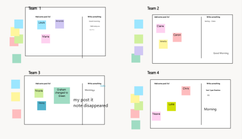
N = Add sticky note
G = Add rectangular sticky note
S = Add shape
T = Create text
C = Add comment
L =Add line
D = Draw with nib brush
P = Previous brush in drawing mode
E = Eraser in drawing mode
Ctrl + L = Lock/unlock object
Ctrl + Shift + P = Pin/unpin object
Ctrl + H = Hide/unhide object

Have a play

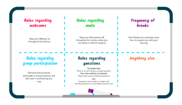
Use the tools to get familiar with adding content.

Hello World

Ninad



Housekeeping



Rules regarding webcams

Keep your Webcam on throughout the delivery

Rules regarding mute

Keep your Microphone off throughout for privacy unless you are asked or need to respond.

Frequency of breaks

Short Breaks are scheduled every hour to support you with your learning.

Rules regarding group participation

Everyone should equally participate in Group discussion and take lead in contributing your view.

Rules regarding questions

The Golden Rule:
'There is no such thing as a stupid question'
Then when asked by an instructor
Please have a go at answering questions
Also
'A question never resides in a single mind'
By asking questions, you are helping everyone out!

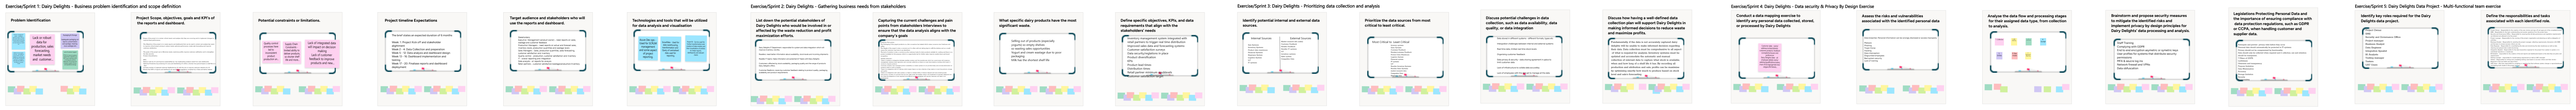
Introduction to Scrum

https://www.youtube.com/embed/9TycLR0TqFA?si=1MG-c_2Tun2rR4c0

Team 1



Exercise/Sprint 1: Dairy Delights - Business problem identification and scope definition

- Problem Identification
- Project Scope, objectives, goals and KPI's of the reports and dashboard.
- Potential constraints or limitations.
- Project timeline Expectations
- Target audience and stakeholders who will use the reports and dashboard.
- Technologies and tools that will be utilized for data analysis and visualisation

Exercise/Sprint 2: Dairy Delights - Gathering business needs from stakeholders

- List down the potential stakeholders of Dairy Delights who would be involved in or affected by the waste reduction and profit maximization efforts.
- Capturing the current challenges and pain points from stakeholders Interviews to ensure that the data analysis aligns with the company's goals
- What specific dairy products have the most significant waste.
- Define specific objectives, KPIs, and data requirements that align with the stakeholders' needs

Exercise/Sprint 3: Dairy Delights - Prioritizing data collection and analysis

- Identify potential internal and external data sources.
- Prioritize the data sources from most critical to least critical.
- Discuss potential challenges in data collection, such as data availability, data quality, or data integration
- Discuss how having a well-defined data collection plan will support Dairy Delights in making informed decisions to reduce waste and maximize profits.

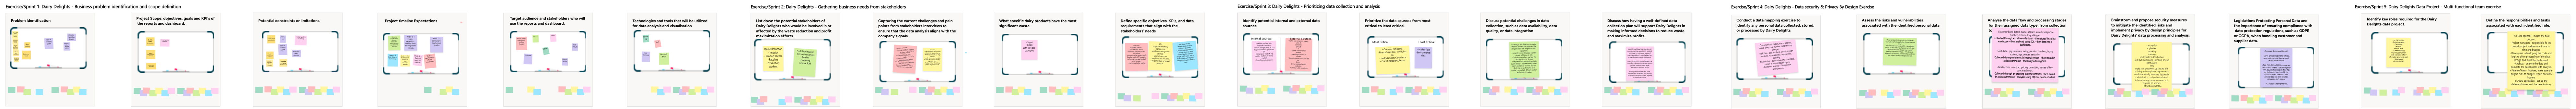
Exercise/Sprint 4: Dairy Delights - Data security & Privacy By Design Exercise

- Conduct a data mapping exercise to identify any personal data collected, stored, or processed by Dairy Delights
- Assess the risks and vulnerabilities associated with the identified personal data
- Analyse the data flow and processing stages for their assigned data type, from collection to analysis.
- Brainstorm and propose security measures to mitigate the identified risks and implement privacy by design principles for Dairy Delights' data processing and analysis.
- Legislations Protecting Personal Data and the importance of ensuring compliance with data protection regulations, such as GDPR or CCPA, when handling customer and supplier data.

Exercise/Sprint 5: Dairy Delights Data Project - Multi-functional team exercise

- Identify key roles required for the Dairy Delights data project.
- Define the responsibilities and tasks associated with each identified role.

Team 2



Exercise/Sprint 1: Dairy Delights - Business problem identification and scope definition

- Problem Identification
- Project Scope, objectives, goals and KPI's of the reports and dashboard.
- Potential constraints or limitations.
- Project timeline Expectations
- Target audience and stakeholders who will use the reports and dashboard.
- Technologies and tools that will be utilized for data analysis and visualisation

Exercise/Sprint 2: Dairy Delights - Gathering business needs from stakeholders

- List down the potential stakeholders of Dairy Delights who would be involved in or affected by the waste reduction and profit maximization efforts.
- Capturing the current challenges and pain points from stakeholders Interviews to ensure that the data analysis aligns with the company's goals
- What specific dairy products have the most significant waste.
- Define specific objectives, KPIs, and data requirements that align with the stakeholders' needs

Exercise/Sprint 3: Dairy Delights - Prioritizing data collection and analysis

- Identify potential internal and external data sources.
- Prioritize the data sources from most critical to least critical.
- Discuss potential challenges in data collection, such as data availability, data quality, or data integration
- Discuss how having a well-defined data collection plan will support Dairy Delights in making informed decisions to reduce waste and maximize profits.

Exercise/Sprint 4: Dairy Delights - Data security & Privacy By Design Exercise

- Conduct a data mapping exercise to identify any personal data collected, stored, or processed by Dairy Delights
